Absinth Tales

- a step back in time-

"Let me be mad... mad with madness of Absinthe, the wildest most luxurious madness in the world."
- Marie Corelli

Sunt foarte multe povesti frumoase, urate, captivante, triste, halucinante sau exagerate despre aceasta licoare numita Absinth, "Absinthe", "Green Fairy" sau "La Fee Verte". Cateva dintre ele au fost spuse de personajele lui Hemingway. Unele s-au nascut din decadenta aroganta a scrierilor lui Oscar Wilde. Pe unele le-au pus in versuri Baudelaire si Verlaine si le-au trait in imagini Picasso, Degas sau Oliva, Toulouse Lautrec si Van Gogh.

Dar Absinth-ul nu i-a inspirat doar pe artistii secolului trecut, bautura fiind mentionata inca din anul 1550 î.H. Chiar si Egiptul antic a lasat marturie ale folosirii acestei licori.

Absinth-ul este mentionat chiar si in Vechiul Testament (Ieremia 9:15, 13:15), a fost recomandat de Pitagora pentru a diminua durerile nasterii, pe cand Hippocrat il prescria contra reumatismului.

Totusi cele mai multe "povesti" cu Absinth incep in anul 1792, atunci cand doctorul Pierre Ordinaire (un francez stabilit in Elvetia) inventeaza reteta bazata pe o intreaga colectie de plante si un extrem de concentrat continut de alcool - 68%.

Din 1797 reteta intra in posesia lui Henri Louis Pernod care incepe productia de masa. Bautura devine atat de larg raspandita, incat cotidianul The Times avea sa anunte ca in 1913 in Franta se consumau in medie 60 de litri de Absinth pe cap de locuitor de-a lungul unui an.

Ca urmare a unei ample conspiratii a producatorilor de vin si de alte bauturi alcoolice, Absinth-ului ii sunt atribuite 2 caracteristici negative: presupozitia ca ar spori agresivitatea (mergand pana la pierderea ratiunii si crima) si ca ar cauza nebunia. Absinth-ul va fi interzis in Belgia (1905), in Elvetia (1908), in Statele Unite (1912), in Italia (1913), Franta (1915) si Germania (1923).

Dupa 100 de ani de la interzicere se demonstreaza prin analiza spectrala ca, desi in cantitati foarte ridicate Wormwood-ul (Artemisia Absinthium, planta care a dat denumirea acestei bauturi) este intr-adevar toxic, prin distilare NU se poate obtine sub nici o forma o doza nociva de Wormwood.

Absinth-ul a ramas in continuare interzis in Statele Unite, insa in Uniunea Europeana este permisa distributia si consumul Absinth-ului cu concentratie de Thujon sub 35ml/kg. Incepe o adevarata Renastere, avand centrele in Cehia, Spania si Marea Britanie.

Insa cum sunt povestile cu Absinth in contemporaneitate?

"After the first glass, you see things as you wish they were. After the second, you see things as they are not. Finally you see things as they really are, which is the most horrible thing in the world." - Oscar Wilde

Si daca O. Wilde capata simtul realitatii (oricat de "horrible" ar fi fost aceasta) dupa trei pahare, altii sustin ca Zana Verde ar aduce creativitatea intr-un pahar cu Absinth flambat (sunt studii care arata ingredientul activ al Artemisiei Absinthium are capacitatea de a stimula imaginatia).

Nu putem nici sa confirmam efectul halucinogen si alternat al realitatii (asemanator cu cel al Cannabis-ului) pe care il marturisesc unii consumatori de Absinth. Si nici nu putem relationa Absinth-ul cu originalitatea artistica, desi multi artisti contemporani (cum este si Johnny Depp) isi declara placerea de a consuma Absinth.

Noi l-am urmat pe Hemingway in viziunea sa asupra vietii si mortii. Si am incercat "o dupa amiaza cu moartea" - un cocktail inventat de catre acesta care inspira insasi modul in care acesta a ales sa-si traiasca viata.

Aderand cu maxim de respect la viziunea scriitorului, am retusat in meniul The Absinth Bar denumirea cocktailului continand Absinth si sampanie:

"Turnati o masura de Absinth intr-un pahar de Sampanie. Aducati Sampanie rece-gheata pana cand obtineti opalescenta vascoasa - La Louche. Beti intr-un ritm foarte lent 3-5 pahare" (E. Hemingway-1935).

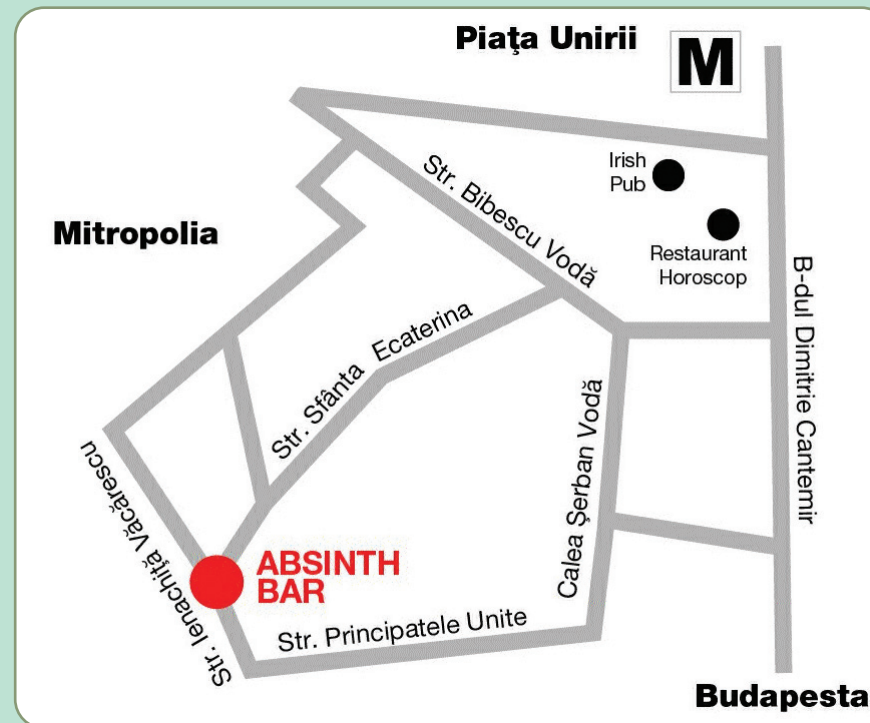

Asa cum romancierul incerca propria sa reteta, noi credem ca oamenii acestui secol au nevoie de propriile experiente traite. "Le moment vecu", cum ar spune, poate, astazi Baudelaire.

Si pentru ca suntem adeptii experientelor personale, ai sinceritatii si onestitatii, daca Absinth-ul va inspira, ascultam orice idee care v-ar aduce un plus de confort si un strop de placere.

In The Absinth Bar ne-am propus sa REcreem ambianta care a adus in comun spiritele luminate ale secolului 19. Propunem relaxare, distractie si inspiratie. Propunem momente de calitate si trairi intense. Multi dintre clientii nostri pot confirma ca am reusit.

Recunoastem, am avut un aliat puternic: a venit mereu Zana Verde sa ne aprinda si sa ne ilumineze.
